Singapore 048544

**TO WHOM IT MAY CONCERN**

Since July 2003, ConventionPro International has worked with Ms June Tan in a strategic collaboration to market business seminars through professional bodies in Singapore, including the Law Society of Singapore.

As Director of Training & Continuing Professional Development of the Law Society, June was instrumental in conceptualizing and obtaining executive approval for the terms of a win-win proposal between ConventionPro and the Law Society of Singapore. She understood the challenges of ConventionPro as a young organization in 2003, still without a proven track record of successful seminars. By forging a collaboration that enabled the Law Society and its members to benefit from ConventionPro's ready portfolio of regional business seminars with little or no financial risks for either party, June demonstrated creativity, resourcefulness and tenacity.

Personally, I have found June to be a pleasant, cheerful and dynamic person. She is also helpful and co-operative. June shows a high level of commitment to her collaboration partners.
